

# KURT HENDERSHOT

## DJ K-SHOT

“Without music, life would be a mistake.”  
- Friedrich Nietzsche

From Kurt's time growing up in the 90's with his walk-man by his side to managing his own CD store for 5 years and to Djing clubs, parties, proms, and weddings; music has always been a part of his life. I truly love ALL music! Every genre can hit your soul and bring out feelings and emotions. Because of that, we can escape our everyday reality and live through music. Kurt grew up and started his Djing career in NJ working proms, parties, college functions, and nightclubs. After moving to North Carolina, he expanded his services to working weddings and has been working weddings ever since. Logging over 250 weddings in his career. He has been Djing now close to 13 years and loves how every event is different and each client is different from the last. Working for many years as a retail manager, Kurt has learned that taking care of his client is more than just meeting expectations. He feels that you need to strive to exceed expectations every time because that's what his clients deserve. The best! “You listen, you learn, you read the crowd, you adapt, and with all that, you then rock the party and create lasting memories for all involved!”
